Sponsorship Packet

Thank you for your interest in sponsoring the **Atlanta Cloud Conference 2025**. The organizing committee is hard at work on the upcoming event and looks forward to highlighting your business to the local cloud community.

Event Description

The Atlanta Cloud Conference is a community focused event led by the non-profit Developer's Association of Georgia, which is made up of community volunteers. It draws upon the expertise of local and regional administrators, architects, leaders, and skilled professionals who come together to share their real-world experiences, best practices, expert knowledge, and lessons learned with others eager to learn.

This event is unique in that it is "for the community, by the community." As a sponsor of the Atlanta Cloud Conference, you will be seen by attendees as a supporter of the local cloud community and recognized as a front-runner within the Atlanta cloud community. In addition to social media, this event is continuously promoted by technology professionals in the weeks and months preceding the event as they talk with their clients, colleagues, and professional network contacts. This ensures that you reach qualified attendees who are engaged with in-demand technologies within their organization.

Last year, the inaugural Atlanta Cloud Conference provided training and networking opportunities for more than 400 ambitious cloud professionals in the area. We expect this year's conference will be bigger and better, generating unequivocal leads for your business.

Event Attendance

In the past, the Developer’s Association of Georgia’s events have drawn **400+ attendees**, and we expect this year’s event to be even bigger and attract many new attendees. As the event approaches, we will share the registration numbers with our sponsors to aid with staff planning and swag quantities.

Tracks

In recent years, presentation content tracks offered to the attendees have included topics related to the following subject areas. We expect this year’s tracks to be similar.

Track	Track Components
Cloud Native	Microservices, Containers, Kubernetes, Function runtimes, Event triggers
Infrastructure	IaaS, Infrastructure as code, Resource provisioning, Configuration templates
Data	Data Architecture, Data Tools, ETL patterns, Data validation
AI & ML	Model deployment, Model performance metrics, Automated retraining, Generative AI
Security	Zero trust, Secrets management, Threat detection, Vulnerability scanning
Business & Productivity	M365, Slack, Salesforce, Low-Code/No-Code Solutions, Collaboration Suites
Hybrid Platforms	Private cloud integration, Edge deployments, Multi provider solutions, IoT
Management & Governance	Metrics collection, Distributed tracing, Alerting rules
Network Engineering	Security, Multi-Cloud, Connectivity
Automation	Pipeline orchestration, CI/CD workflows, Release coordination, access controls
Professional Development & Soft Skills	Career Management, Leadership, Team Building, Small Business Development, Consulting, Resumes & Interviewing, Public Speaking, and more

Attendees select the topics which most closely align with their job responsibilities or areas of interest and are not limited in any way with regards to which sessions they may attend. Each track consists of several presentations lasting approximately 60 minutes each and ranging from introductory 100-level content to highly technical, 400-level “expert” sessions. The speakers represent a broad cross section of the cloud community and offer a variety of different perspectives on application architecture, design, and cloud. Some of those sessions are demos, so that attendees can learn with hands-on experience. We also encourage sponsors to submit technical talks and demos. No overt sales pitches or commercial talks will be allowed, and sponsorship does not guarantee the speaker’s selection.

Sponsorship Levels

There are six levels of sponsorships (SWAG, Silver, Gold, Platinum, Attendee After Party, and Speaker Dinner). The event is hosted by the Developer’s Association of Georgia, a 501(c)(3) charitable organization, so your sponsorship may be tax deductible. Check with your financial advisor.
